TimeWeave

Day 1 progress report

Dilnaz Grewal
21 Oct 2026

A working prototype that **generates a clash-free timetable for the whole college** in seconds and keeps students' days compact.

✓ 0	394	~33 s	1.2 → 0.07
clashes, independently verified	weekly classes scheduled (20 sections)	to generate the whole college	idle periods per student per day

Built today

- One-click timetable generation (Google OR-Tools)
- Independent clash checker
- Flexible lunch hour between 11:30 and 2:30
- Views by section, teacher or room, on desktop and phone
- Free-room finder
- Teacher-load dashboard
- AI assistant for timetable questions
- Print / Save as PDF

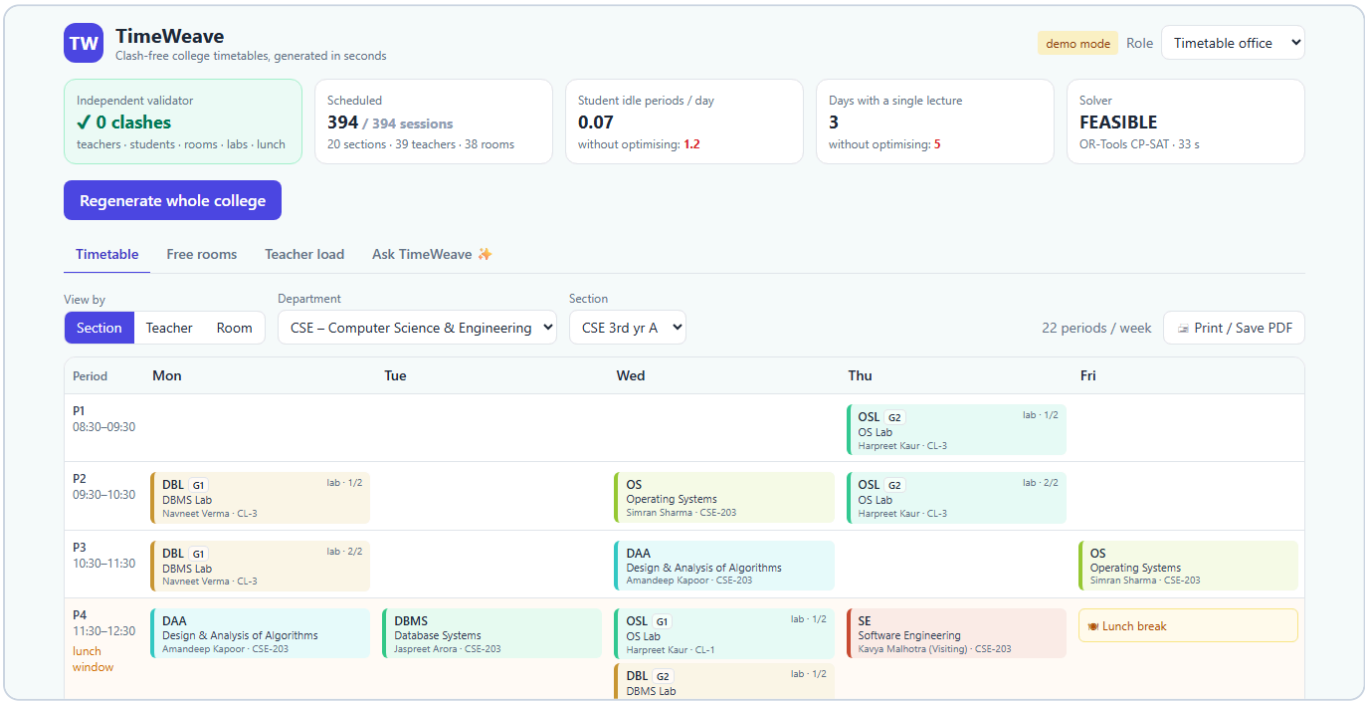

How it works

College data

Solver: applies the rules and minimises gaps

Validator: confirms 0 clashes

Timetable views · free rooms · AI assistant · PDF

The generated timetable for CSE 3rd year A

Next

- **Day 2:** Excel upload and a manual editor with clash warnings
- **Day 3:** substitutes for absent teachers, and login
- **Day 4:** safe edits with a preview, and deployment
